Organisation

ETH Zurich, Safety, Security, Health and Environment (SSHE)

The following topics are covered in the training module "Safety and Security at ETH Zurich" on Moodle:

- responsibilities and distribution of tasks regarding safety, security and health at ETH Zurich
- safety functions at ETH Zurich
- services of Safety, Security, Health and Environment (SSHE) department with information on the safety training program
- alerting and behaviour in the event of an incident
- information on reporting offices, contact and advice centres and contact persons at SGU.

In addition, examples of basic and specific safety, security and health topics as well as special functions are discussed.

Safety, Security, Health and Environment (SSHE)
